

Nanoscale Imaging, Sensing, and Actuation for Biomedical Applications XII

Alexander N. Cartwright

Dan V. Nicolau

Editors

9 and 12 February 2015

San Francisco, California, United States

Sponsored and Published by

SPIE

Volume 9337

Proceedings of SPIE, 1605-7422, V. 9337

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Nanoscale Imaging, Sensing, and Actuation for Biomedical Applications XII, edited by
Alexander N. Cartwright, Dan V. Nicolau, Proc. of SPIE Vol. 9337, 933701
© 2015 SPIE · CCC code: 1605-7422/15/\$18 · doi: 10.1117/12.2192901

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

- v *Authors*
- vii *Conference Committee*

SESSION 1 NANOSCALE IMAGING AND NANOSPECTROSCOPY

- 9337 02 **Confocal Raman microscopy and hyperspectral dark field microscopy imaging of chemical and biological systems (Invited Paper)** [9337-1]
- 9337 03 **Scanning localized magnetic fields in microfluidic system using single spin in diamond nanocrystal** [9337-2]
- 9337 05 **Biological super-resolution imaging by using novel microsphere-embedded coverslips** [9337-4]
- 9337 09 **Nano-imaging collagen by atomic force, near-field and nonlinear microscope** [9337-8]
- 9337 0A **Extraordinary transmission-based super-resolved axial imaging using subwavelength metallic nanoaperture arrays** [9337-9]

SESSION 2 BIOSENSING WITH NANOSTRUCTURES AND NANOPARTICLES

- 9337 0D **Label-free monitoring of individual DNA hybridization using SERS** [9337-12]
- 9337 0E **Determination of thickness and density of a wet multilayer polymer system with sub-nanometer resolution by means of a dual polarization silicon-on-insulator microring** [9337-13]
- 9337 0G **Determination of the persistence length of actin filaments on microcontact printed myosin patterns** [9337-17]

POSTER SESSION

- 9337 0I **Persistent luminescence in nanophosphors for long term *in-vivo* bio-imaging (Invited Paper)** [9337-15]
- 9337 0J **Performance evaluation for different sensing surface of BICELLS bio-transducers for dry eye biomarkers** [9337-19]
- 9337 0N **Imaging highly absorbing nanoparticles using photothermal microscopy** [9337-23]
- 9337 0O **Systematic study and quantification of optical forces on porous silicon nanoparticles** [9337-24]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

James G. Fujimoto, Massachusetts Institute of Technology
(United States)

R. Rox Anderson, Wellman Center for Photomedicine, Massachusetts
General Hospital (United States) and Harvard School of Medicine
(United States)

Program Track Chairs

Paras N. Prasad, University at Buffalo (United States)

Dan V. Nicolau, McGill University (Canada)

Conference Chairs

Alexander N. Cartwright, University at Buffalo (United States)

Dan V. Nicolau, McGill University (Canada)

Conference Program Committee

Vamsy P. Chodavarapu, McGill University (Canada)

Piotr A. Grodzinski, National Cancer Institute (United States)

Sung Jin Kim, University of Miami (United States)

Brian D. MacCraith, Dublin City University (Ireland)

Paulo C. Morais, Universidade de Brasília (Brazil)

Paras N. Prasad, University at Buffalo (United States)

Sharon M. Weiss, Vanderbilt University (United States)

Session Chairs

- 1 Nanoscale Imaging and Nanospectroscopy
Alexander N. Cartwright, University at Buffalo (United States)
- 2 Biosensing with Nanostructures and Nanoparticles
Dan V. Nicolau, McGill University (Canada)
