This article [*Opt. Eng.* **47**, 114001 (2008)] was originally published on 6 November 2008 with errors in Eq. (20). A negative sign was missing in the numerator and an addition sign appeared in the denominator instead of a minus sign. The correct equation is as follows:

$$t = \frac{(1 - R)^2 \exp(-ab/\cos \theta_r)}{1 - R^2 \exp(-2ab/\cos \theta_r)}, \quad (20)$$

All online versions of the article were corrected on 23 July 2009.
