PROCEEDINGS OF SPIE

Third International Conference on Sensors and Information Technology (ICSI 2023)

Hemachandran Kannan
Jude Hemanth
Editors

6–8 January 2023
Xiamen, China

Organized by
Shanghai Jiao Tong University (China)

Sponsored by
AEIC Academic Exchange Information Centre (China)

Published by
SPIE

Volume 12699

Proceedings of SPIE 0277-786X, V. 12699

Third International Conference on Sensors and Information Technology (ICSI 2023),
edited by Hemachandran Kannan, Jude Hemanth, Proc. of SPIE Vol. 12699,
1269901 · © 2023 SPIE · 0277-786X · doi: 10.1117/12.2683788

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Third International Conference on Sensors and Information Technology (ICSI 2023)*, edited by Hemachandran Kannan, Jude Hemanth, Proc. of SPIE 12699, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

INTELLIGENT SENSING TECHNOLOGY AND SYSTEM OPTIMIZATION

12699 02 **Sensor fusion-based obstacle detection method for hazy environment** [12699-4]

12699 03 **Influence of graded back barrier on AlGaN/GaN HEMT and HEMT-based sensor** [12699-36]

12699 04 **Study on the spatial distribution of potential fire sources in highway tunnels** [12699-12]

12699 05 **Broyden-Fletcher-Goldfarb-Shanno methods with application to underwater acoustic beamforming** [12699-3]

12699 06 **Research on key technologies of performance navigation for civil aircraft based on multi-sensor information fusion** [12699-19]

12699 07 **Improvement of the swirlmeter with anti-jamming performance** [12699-38]

12699 08 **Design of eddy current testing system for metal conductivity based on TMR sensor** [12699-9]

12699 09 **Research on thermocouple length for the thermoelectric RF power sensors in 0.18-μm CMOS technology** [12699-23]

12699 0A **Design of FPGA-based TDLAS aircraft fire detection system** [12699-15]

12699 0B **Research on cell activity sensor based on impedance principle** [12699-34]

12699 0C **Ensemble kernel-based broad learning system for fast gas recognition in electronic nose systems** [12699-20]

12699 0D **Research on the application of remote sensing and GIS technology in railroad engineering geology survey** [12699-37]

12699 0E **Broadband current array sensing system for transformer and its stability control technology** [12699-26]

12699 0F **Study on the aging pattern of Pt-Au alloy oxygen-pumping electrode of NO_x sensor** [12699-11]

12699 0G **Research on combined control strategy of frequency tracking for MCRWPT system** [12699-41]

12699 0H **Design of electric power monitoring and early warning system based on Beidou** [12699-32]

12699 0I **Impedance characteristics of flexible strain sensors based on zero-dimensional carbon nanocomposites** [12699-27]

12699 0J **Monocular visual-inertial odometry with wheel encoder for urban vehicle** [12699-35]

MOBILE COMMUNICATION AND INFORMATION IDENTIFICATION TECHNOLOGY

12699 0K **Insulator pollution safety grade evaluation scheme based on hyper-spectral detection** [12699-5]

12699 0L **Infrared active identification method for safety risk of field workers based on optimal distance technology of ultrasonic detection** [12699-43]

12699 0M **A new signal denoising algorithm for low-cost MEMS gyroscope** [12699-42]

12699 0N **The airport single light monitoring information transmission based on the combined transport method** [12699-24]

12699 0O **Dimensional emotion recognition based on two stream CNN fusion attention mechanism** [12699-8]

12699 0P **Research on second order complementary filter strapdown inertial navigation algorithm based on information fusion** [12699-16]

12699 0Q **The performance prediction model of NMOSFET based on BP neural network** [12699-31]

12699 0R **Eddy current loss distribution model based on temperature field simulation** [12699-21]

12699 0S **Impact of mobility models on UAV delay tolerance network** [12699-18]

12699 0T **Study on the performance of all-solid-state copper ion selective electrode based on PEDOT/PSS** [12699-29]

12699 0U **TOA estimation of channel data in multipath environment** [12699-28]

12699 0V **Estimated off-block time based on LSTM-TCN network** [12699-40]

12699 0W **Solid-state nanopore sensor combined with time series analysis algorithms for nanoparticles discrimination** [12699-17]

12699 0X **Self-adaptive graph convolution networks with application to industrial soft sensor modeling** [12699-7]

12699 0Y **Design and implementation of millimeter wave radar target detection algorithm based on SYS_BIOS** [12699-30]

12699 0Z **Research on synchronous coherent jamming technology of 5G mobile phone signal** [12699-25]

12699 10 **Reliability analysis of spherical six axis redundant inertial measurement unit** [12699-44]

12699 11 **AT89C52 microcontroller-based smoke temperature and humidity design** [12699-22]

Conference Committee

Conference General Chair

Jude Hemanth, Karunya University (India)

Publication Chair

Hemachandran Kannan, Woxsen University (India)

Technical Program Committee Chairs

Nasir Saeed, Northern Border University (Saudi Arabia)
Ruhui Ma, Shanghai Jiao Tong University (China)

Technical Program Committee

Ji Wang, Ningbo University (China)
Jelena Misic, Ryerson University (Canada)
Jude Hemanth, Karunya University (India)
Arun Balodi, Atria Institute of Technology (India)
Mahesh Bundele, Poornima College of Engineering (India)
Haiwu Li, Xiangsihu College of Guangxi Minzu University (China)
Dilbag Singh, Gwangju Institute of Science and Technology (Korea)
Xianbin Wang, Canada Research Chair at Western University (Canada)
Jerry Chun-Wei Lin, Western Norway University of Applied Sciences (Norway)
Donatella Darsena, Università di Naples Parthenope (Italy)
Hassan Jameel Asghar, Macquarie University (Australia)
Ruhui Ma, Shanghai Jiao Tong University (China)
Nasir Saeed, Electrical Engineering at Northern Border University (Saudi Arabia)
Jafar Alzubi, Al-Balqa Applied University (Jordan)
Ata Jahangir Moshayedi, Jiangxi University of Science and Technology (China)
Xiaodong Wu, Sichuan University (China)
